

Powerscreen Metrotrak â?? 2021 â?? 4,000 Hours

Description

The **Powerscreen Metrotrak** is a compact and efficient jaw crusher, designed for high performance in recycling, construction, and demolition applications. Ideal for C&D waste, concrete, and general recycling operations, this machine offers excellent mobility and ease of transport, making it perfect for both urban and on-site crushing projects.

This 2021 unit has approximately 4,000 hours and is currently undergoing refurbishment. The machine will be fully prepared and ready for work in the next 2â??3 weeks, offering a great opportunity to secure a high-demand crusher before it becomes available on the open market. Located in the UK.
