

Doppstadt SM 620 â?? 2020 â?? 2,400 Hours

Description

The **Doppstadt SM 620** is a highly versatile and efficient mobile trommel screener, designed for a wide range of screening applications. Whether processing compost, soil, wood chips, aggregates, or waste, this machine delivers consistent and high-capacity performance.

Key Features:

â?? **Year:** 2020
â?? **Hours:** 2,400
â?? **Screening Drum:** 5.5m length x 2.0m diameter
â?? **Engine:** Diesel-powered, fuel-efficient system
â?? **Mobility:** Fully mobile on a tracked chassis for easy site transport
â?? **Discharge Conveyors:** Adjustable belts for efficient material separation
â?? **Interchangeable Screens:** Quick-change drum system for various material types

Applications:

â?? **Compost & Soil** â?? Efficiently screens organic material for composting
â?? **Wood & Biomass** â?? Ideal for processing wood chips and mulch
â?? **Aggregates & Sand** â?? Separates fine and coarse materials for construction use
â?? **Waste Processing** â?? Screens municipal solid waste, RDF, and recyclables
