

Arjes VZ 850 DK 2024 1,586 Hours

Description

The Arjes VZ 850 DK is a late model twin shaft slow speed shredder built for demanding recycling applications, offering strong production capacity with low operating costs. Ideal for processing wood waste, green waste, construction & demolition waste, and bulky materials, this machine is a powerful and versatile solution for modern recycling operations.

This 2024 machine has only 1,586 hours and is in very good condition. The shredder is currently located in Spain and will become available once the replacement machine arrives. With its low hours and modern specification, this is an excellent opportunity for operators looking for a reliable, high-performance shredder. Located in Spain.
