

Doppstadt DW 2560 B â?? 2010

Description

This **2010 Doppstadt DW 2560** is a reliable slow-speed shredder, ideal for processing wood waste, green waste, and industrial materials. Despite its age, the machine is still **fully operational**, with a **strong frame and a well-functioning diesel engine**. The **shaft requires repair**, but our collaborator **has all the necessary parts and can provide full repair services and technical support**.

Specifications:

- **Year:** 2010
- **Single-Shaft Slow-Speed Shredder**
- **Wheeled Version**
- **Engine:** Diesel
- **Power Output:** 350 HP
- **Processing Capacity:** Up to 40 t/h (depending on material)
- **Weight:** 19 tons
- **Hopper Size:** Large feed hopper for efficient material intake
- **Material Suitability:** Wood waste, green waste, industrial waste, bulky wasteWheeled chassis for easy on-site transport

Applications & Suitable Materials

- **Wood and Biomass Recycling** â?? Efficiently processes tree trunks, branches, pallets, and general waste wood.
- **Green Waste Processing** â?? Suitable for garden waste, roots, and organic materials.
- **Industrial Waste Reduction** â?? Handles bulky waste, plastics, and light construction waste
- **Landfill Pre-Shredding** â?? Prepares waste for further processing or disposal.
- **Composting Facilities** â?? Ideal for breaking down organic materials for compost production.
- **Waste-to-Energy Plants** â?? Pre-processes materials for RDF (Refuse-Derived Fuel) production.
