

For Sale Arjes 760D Plus

Description

The **Arjes 760D Plus** is a heavy-duty twin shaft slow speed shredder engineered for demanding recycling applications. Designed to process wood waste, mixed waste, light scrap, and construction & demolition materials, it combines exceptional shredding power with modern technology and outstanding reliability.

This machine has been **completely stripped and rebuilt from the frame up** by a specialist in recycling machinery. Featuring a **new Mercedes-Benz OM 471 engine**, new shafts and tools, a new hydraulic drive system, new transmission, and a completely new control system, it is effectively a new machine built on the proven Arjes platform. Mounted on a wheel axle, it is mobile and ready for work. Located in Germany.

Key Specifications

â?? **Model:** Arjes 760D Plus
â?? **Condition:** Completely rebuilt
â?? **Engine:** NEW Mercedes-Benz OM 471
â?? **Engine Power:** 350 kW / 477 HP
â?? **Emission system:** No AdBlue required
â?? **Transmission:** NEW SYNCHRON 2 Ã? 125,000 Nm
â?? **Mobility:** Wheel axle mounted

Key Features

â?? Completely rebuilt from the frame up by a specialist recycling machinery company
â?? NEW Mercedes-Benz OM 471 engine delivering 350 kW / 477 HP
â?? NEW shafts and tools with combination specification for wood, waste, and light scrap
â?? NEW Bosch Rexroth hydraulic drive conversion for improved performance and reliability
â?? NEW transmission rated at 2 Ã? 125,000 Nm torque
â?? NEW control system, hydraulic lines, and radio remote control
â?? Breaker bar fitted for enhanced material processing
â?? Permanent overband magnet for efficient ferrous metal separation
