

Willibald SR 5000 | 2009 | 2,613 Hours shredder for sale

Description

The **Willibald SR 5000** is a German-built mobile shredder designed for demanding waste and recycling applications. Engineered for reliability and high production, this machine is ideal for processing wood waste, green waste, biomass, and other bulky materials while offering the flexibility of a mobile setup.

This **2009** machine has only **2,613 hours**, making it a low-hour example for its year. It is powered by a **MAN D2876 LE 123 engine producing 375 kW** and has been well maintained, with many new parts fitted this spring. The machine also includes all spare and wear parts and is ready for work. Located in Germany.

Key Specifications

â?? **Model:** Willibald SR 5000
â?? **Year:** 2009
â?? **Hours:** 2,613
â?? **Engine:** MAN D2876 LE 123
â?? **Engine Power:** 375 kW
â?? **Rotor:** 16 solid hammers
â?? **Drive System:** Hydraulic
â?? **Condition:** Well maintained with many new parts fitted

Key Features

â?? German-built mobile shredder designed for demanding recycling applications
â?? Low hours for the year â?? only 2,613 hours
â?? Rotor equipped with 16 solid hammers for efficient material processing
â?? Hydraulic drive system for reliable operation
â?? Radio remote control for safe and convenient machine control
â?? Hydraulic support leg for improved stability
â?? Central lubrication system for reduced maintenance

OVS Recycling Ltd | Company Number: 15921502 | Registered Office: 7 Bell Yard, London , England, WC2A 2JR | www.ovsrecycling.co.uk

?? Magnetic roller for efficient ferrous metal separation
?? Reversible fan for improved cooling performance
a?? Hydraulic shaft extractor for easier servicing and maintenance
â?? Includes spare and wear parts fitted and supplied with the machine
