

Arjes Impaktor 250

Description

Arjes Impaktor 250 â?? Compact & Versatile Twin-Shaft Shredder

The **Arjes Impaktor 250** is a powerful twin-shaft shredder designed for processing a wide range of materials. Its compact size and high mobility make it ideal for on-site small and medium recycling and demolition projects. Equipped with a **129 kW Volvo Penta engine**, **paddle shafts**, and an **overband magnet**, it delivers efficient material reduction with high throughput.

Specifications:

- **Engine:** Volvo Penta, 129 kW (172HP)
- **Shaft Length:** 1,500 mm
- **Discharge Belt:** up to 3,000 mm
- **Magnet:** Overband for metal separation
- **Side Combs:** Manual adjustment
- **Service History:** Full dealer service
- **Weight:** 15,000 kg

Transport Dimensions:

- **Length:** 6,700 mm
- **Width:** 2,400 mm
- **Height:** 2,800 mm

Applications:

- **Construction & Demolition Waste:** Efficiently processes mixed rubble, reinforced and unreinforced concrete, and asphalt.
- **Metal Scrap & Car Bodies:** Capable of shredding light metals and white goods scrap.

OVS Recycling Ltd | Company Number: 15921502 | Registered Office: 7 Bell Yard, London , England, WC2A 2JR | www.ovsrecycling.co.uk

- **Waste Wood & Biomass:** Suitable for green waste, compost, and Class B wood.
- **Household & Commercial Waste:** Handles residual waste, plastic, tires, paper, and cardboard.
- **Rubber & Old Tires:** Effectively shreds rubber materials and used tires.
